## K5VJV Talking about 3 D Printers

### The Articles for This Month

#### 3D Printers

The club lecture on June 1 was particularly interesting. K5 VJV, Mike Sherick, talked on 3 D printers. These are a remarkable development which enables people to create different object out of a variety of plastics. These objects can be extremely detailed. You would think that they could be impossible to build without extremely expensive machines, yet they can be built in your own workroom on a special printer which need not cost vey much. The items which K5VJV showed included many pieces of amateur equipment including custom made cases for construction projects

## **Saturday July 6 Meeting**

The usual monthly meeting will be at the club house on July 6. The program will be a video on some related topic. The business meeting, I am told, will feature a discussion on the web site. A list of desired features will be created and volunteers to be in charge of sections of the web site will be requested.

## CLUB INFORMATION

The MVRC Clubhouse is located at the intersection of Wilt and Jefferson. To find the clubhouse, set your destination on your GPS receiver as 32 degrees 22.961 minutes and -106 degrees 41.44 minutes. If you don't own a GPS, take the Porter exit near the firehouse on US 70. It is about 5 miles east from the I 25 interchange. Go south on Porter until you come to Jefferson. There turn left toward the mountains and go to Wilt. You will see the beam on the corner. The treasurer would be delighted to receive your contribution for landscaping and furnishing. More information at <http://n5bl.org>
